to really make the grade.

The Kiski School has exceptional and exceptionally committed teachers who are experts in the ways that boys learn. Classes here are energetic, interactive, provocative and fun. With a college preparatory curriculum that combines liberal arts, contemporary classes and leading-edge facilities, we keep boys motivated and intrigued—all while preparing them to tackle 21st century challenges and careers. Along the way, students get all the support they need to succeed. Faculty and staff work individually with boys starting freshman year. And teachers offer 'extra help' sessions, as well as one-on-one tutoring if needed.

Rising 9th grade boys who are exceptional students may apply for an Andrew W. Wilson Merit Scholarship. It rewards the best and brightest with full tuition, room and board, and it is renewable annually. One award is given per year.

They also build
friendships that last forever.

The Kiski School is a place where boys learn to become good men. They discover how to be independent—living in a dorm with a roommate, organizing their time, picking up a new sport or learning an instrument just for fun. It's a 24/7 opportunity to stretch, explore, grow and thrive. But always with support and guidance. Here students are encouraged to embrace their artistic side, develop their inner nerd, push their physical talents, and see the value in others. Immersed in the Kiski culture, they learn to be well-mannered, confident, curious, friendly, down-to-earth and passionate in all pursuits. They also discover the power of friendship and the impact of a brotherhood that lasts a lifetime.

We have 23 Varsity and JV teams. Sports include baseball, basketball, cross-country, football, golf, ice hockey, lacrosse, soccer, swimming, tennis, track & field and wrestling.
