

# Ranked in the top 1% of America's High Schools.

RIVERSTONE  
INTERNATIONAL SCHOOL

## Students thrive at Riverstone. Our Five Pillars create a complete education.

### Academic Excellence and IB Expertise

Our expert teachers guide students through a rigorous IB Diploma Program (DP), encouraging inquiry, critical thinking, and intellectual curiosity. With personalized attention in small classes, students achieve academic mastery in subjects ranging from advanced mathematics and science to language and literature in their mother tongue. Our wide range of IB DP course offerings, from World Religions to higher-level math, visual art, and music, allows students to explore their interests while preparing for the next step in their academic journey.

### Community and Service

Students at Riverstone are encouraged to become changemakers and to take informed, purposeful action in their local communities through environmental stewardship, community partnerships, and advocacy efforts. Our high school students partner with organizations like The Idaho Foodbank, the Humane Society, and the Idaho Office for Refugees. Through these collaborations, they develop civic responsibility, leadership skills, and a lasting commitment to make a positive impact.

### Leadership By Example

Taking on leadership roles is an expectation of our students. Students drive initiatives in the classroom, on the trails, as student ambassadors, and through our 30+ student-led clubs, including everything from Anglers Club, Beekeeping, and Dungeons & Dragons to Chemistry & Forensics.

### International Understanding

With students from 40+ nations and native-speaking teachers in Spanish, Mandarin, and German, Riverstone fosters a global community. Educational trips to Italy, Costa Rica, China, and Spain, including a Grade 9 exchange, give students hands-on international experiences. This is complemented by a diverse boarding program for Grades 8-12.

### Outdoor Education

Backpacking, camping, hiking, and climbing trips challenge students to carry supplies, set up camp, and cook meals, fostering self-reliance and teamwork. Navigating unfamiliar environments and unpredictable weather builds resilience and confidence, empowering them to succeed in new and challenging situations while exploring the stunning landscapes of Idaho and the surrounding region. Students also have the opportunity to earn a Outdoor Leadership Certificate.

# Connected Learning Experiences

Riverstone balances a rigorous and challenging academic curriculum with a highly personal experience that caters to the needs of every individual in our community. Our creative, interdisciplinary IB program prepares students to succeed no matter where they go after graduation.

## Adventure and Connection

Riverstone's outdoor education program nurtures resilience, teamwork, and leadership through immersive experiences like snowshoeing, backpacking, and climbing in the Sawtooth Mountains, City of Rocks, Zion National Park, and Grand Gulch, UT. Students gain confidence and independence as they face challenges together—navigating weather, sharing responsibilities, and forging bonds around the campfire. Their journeys often culminate in Wilderness First Aid certification and the Riverstone Outdoor Leadership Certificate, preparing them for success in all areas of life.

## Global Perspectives

Riverstone is truly a global community of students, parents, staff, and alumni. With students from over 40 countries, languages such as Spanish, Mandarin, and German taught by native speakers, and a required international exchange in Spain in Grade 9, we ensure every student gains a rich understanding of the world. Students may also participate in educational trips to Europe, Asia, and beyond, expanding their horizons and deepening their cultural awareness.

## CLASS OF 2024 HIGHLIGHTS

**95%** of graduates **accepted** into the **top 150 U.S. universities.**

Over **\$6.3 million** in merit-based **scholarships** awarded.

**Average** Rivertstone merit-based **scholarship of \$255,000+.**

## Positive Community Impact

Service is a cornerstone of the Riverstone experience. High school students engage in meaningful projects, from organizing food drives and neighborhood yard-work, to hosting events such as Parents' Night, where they care for younger students to give families a night of relaxation. These experiences, instilling a sense of responsibility and empathy, empower students to positively impact their local and global communities.

## Riverstone College Counseling

Riverstone's college counseling program begins in Grade 9, offering a highly personalized approach with a low counselor-to-student ratio. Students explore higher education options through annual college tours, including a West Coast trip in Grade 11 and an East Coast tour during spring break for Grades 9-11. A Grade 11 spring essay-writing retreat ensures students are well-prepared for applications. Our concierge-level guidance helps every student identify and achieve their best-fit college opportunity.
