AT MAUI PREP  
YOU ARE EAGER TO EXPLORE

Maui Prep's Moana Institute is a marine studies immersion program that caters to a global audience.

Students may participate in the Semester On Island program that will satisfy half-year credit requirements for most American high schools; they may participate in the Summer@Moana program, which is a less intensive 2-week program; or they may join a school group that can visit Maui and the Moana Institute at different times of the year.

The marine studies program takes full advantage of Maui's marine, coastal, and watershed resources to expose and reinforce the core environmental concept of interconnectivity.
