

HILLSIDE SCHOOL – Chinese Testimonials

“Our son has just returned home to China after his first school year at Hillside. Simply put, he loves it and as a family we are thrilled. He has learned some much in one year alone. The teachers are like family members. They do not scold but rather they use positive reinforcement and encouragement to help boys overcome challenges in and out of the classroom. My child feels included and welcomed.”

-Grade 6 parent from Shanghai

“Hillside School invests in the latest technology and they have a state-of-the-art Innovation Lab (iLab) on campus. The boys love this space because here they are encouraged to create and explore. The students have access to 3D printers, laser cutters, robotics, rocketry, and more! The iLab curriculum helps students to establish innovative and inventive views and skills for the advanced technologies.”

-Grade 7 stateside guardian

“We love the school's performance evaluation program. It not only evaluates academics achievement but also the individual student's work ethic. My nephew is more independent and more willing to help other kids. We are thrilled with the changes!”

-Grade 7 Chinese stateside aunt & guardian

“The school is a terrific blend of New England traditional boarding school as well 21st Century modernism. Many new initiatives are taking place. My son is happy to matriculate at a competitive secondary school but will miss the opportunity to enjoy many new and exciting developments happening at his beloved Hillside.”
