

ST. MARK'S SCHOOL Signature Programs

St. Mark's Signature Programs are built on our distinctive commitment to interdisciplinary, experiential and community based learning.

"Through our Signature Programs, St. Markers can discover new passions, sharpen areas of interest, and explore the consequence of their ideas in the world beyond our campus"

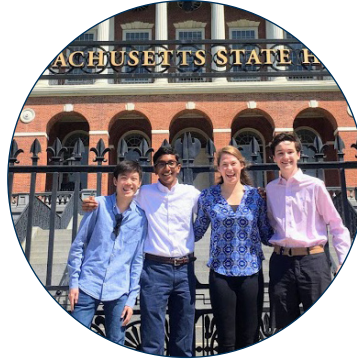

Nat Waters, Dean of Academics

ST. MARK'S Saturdays

Students and faculty engage in academic, service, character, and wellness coursework in an extended experiential learning block on Saturdays.

Students have a form-based experience focused on the desired educational learning outcomes for intellect, character, and leadership. Lion Term courses promote community engagement and increasing intellectual independence.

Global Citizenship

The Global Citizenship Initiative promotes an appreciation of the human universals that make all people more similar than different and inspires our students to become global citizens.

This digital journal exhibits academic work across the disciplines and voluntary work beyond the curriculum by the students of St. Mark's.

Gray Colloquium

The C. Boyden Gray Colloquium is designed to engage St. Mark's students in explorations of complex global issues. Speakers with varying viewpoints take part in all-community events.
